

Feather and Fan Afghan Kit

Materials:

Size US 15 47" Circular

Darning needle

All yarns are bulky or a combination of two yarns. This project is a great stash buster. Combine any worsted weight yarns or a worsted and a novelty that achieves a bulky weight. The feather and fan is very forgiving to slight variations in gauge. Don't worry about gauge since it is an afghan. You will be close enough and it will look great!
